TSE-RM-2

Multi-Radio Shock Mount

The TSE-RM-2 Radio Shock Mount allows for fast and easy installations of transceivers and their attached power supplies and power adapters.

The TSE-RM-2 Radio Shock Mount can be used in vehicle, aircraft and permanent shelter installations for the following equipment:

- AN/PSC-5 Series
- AN/PRC-117F
- AN/PRC-113
- AN/PRC-150
- AN/PRC-138
- AN/URC-200
- Transceiver power units from most manufacturers

Transceivers with attached power supplies mount directly on the TSE-RM-2 with two heavy-duty thumbscrew clips in the front and adjustable mount adapter in the rear to ensure a secure fit. Tools are not required to install radios, and the TSE-RM-2 Radio Shock Mount is well suited for emergency egress operations from vehicles or static locations.

The TSE-RM-2 Radio Shock Mount's four heavy-duty shock/vibration isolators protect equipment from severe jolts and vibration.

(Radio Not Included)

Part Number: TSE-RM-2
